## Overview map for the **KINGS RIVER ROUTE**

### Notes:

This is a new route for 2007, and starts with a scenic drive south along Rockhouse Road to Highway 221, with lots of tight turns and overhangs. Heading east on 221 provides several long straight stretches as well as several sweeping corners. North on 221 out of Berryville is less scenic, but there are some long straights all the way into Missouri. Heading west on Highway 86 the road rolls with some nice elevation changes. South on Highway 23 through Holiday Island provides less opportunity to pass along the winding sections of highway. The drive ends passing through downtown Eureka Springs where pedestrian traffic can be heavy, please watch your speed.

Overview map for the **ROARING RIVER ROUTE**

**Notes:**

This is the route we took in 2005. It begins passing through downtown Eureka Springs to Highway 187, where it turns west. A few miles later the route crosses the Little Golden Gate Bridge. Be prepared to allow oncoming cars to cross. Immediately after crossing the bridge there is a nice place to pull over and take photos. From there, the route joins Highway 62 back west to Gateway, where it turns north into Missouri and then east toward Roaring River State Park. The second half of the drive along 112 is especially pretty. At the park there are a couple of places to stop and stretch and take photos. The route continues east with some nice elevation changes along Highway F and Highway 86, then south on Highway 23 through Holiday Island. The drive ends passing through downtown Eureka Springs where pedestrian traffic can be heavy, please watch your speed.

## Overview map for the **WAR EAGLE ROUTE**

### Notes:

Our longest route begins by heading south on Highway 23. There are some good sweeping turns and a couple of long straight stretches along the highway. At Forum the route takes the right fork of 23 and passes through Winthrow State Park. Please watch your speed along this stretch. After the park, the route continues south to Highway 412, where it turns west. Watch your speed passing through Hindsville – home of the Valley Inn Café and great pie. At Highway 303 the route swings north toward the War Eagle Mill. Highway 303 has several blind corners and some beautiful scenery, and War Eagle Mill is a favorite stopping place along the route. From the mill, the route heads north then back east along Highway 12 and then Highway 127. Stretches of 127 provide great corners and a couple of nice straight stretches. Then the route turns north on 23 again back into Eureka Springs.
